

linha gesto

linha gesto

A linha gesto nasce do encontro entre geometria essencial, sensibilidade manual e desenho autoral. cada peça é esmaltada à mão, revelando variações sutis de cor, textura e traço — marcas do processo artesanal que tornam cada composição única. O desenho parte de formas primárias e padrões gráficos atemporais, reinterpretados de forma contemporânea para criar superfícies que equilibram rigor e espontaneidade.

A coleção combina módulos decorados e peças lisas, permitindo composições versáteis: ora mais silenciosas, ora mais expressivas, sempre com identidade. a paleta cromática dialoga com tons minerais, terrosos e profundos, pensados para atravessar o tempo e se integrar a diferentes linguagens arquitetônicas.

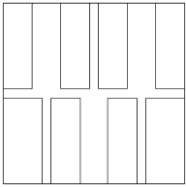

Mais do que revestimentos, a Linha Gesto propõe superfícies com presença, matéria e intenção — desenvolvidas para projetos que valorizam desenho, autenticidade e o fazer manual.
